Description of processing operations

This is a written description of the processing of personal data in EU Data Protection Products (EU) 2016/679. In practice, this explains how we collect and process your personal information on our website and other services.

Why and how do we use your personal information?

We use your information

- if you have given us your consent or if use of them is necessary to provide the services you request
- if use of them are necessary to exercise or comply with any legal rights or obligations
- for normal business purposes such as those disclosed in this description.
- our customer communications, services and surveys.

What personal information do we collect?

Parts of the data are collected, stored and processed by all users of our services.
However, we only collect the necessary information.

How long do we keep your personal information?

We will only retain your information for as long as we need it or as long as we are legally required to keep it. Then we either remove them or anonymize them so that you cannot be identified. We process information differently depending on the purpose for which it is used. However, you can ask us to delete your personal information at any time.

How do we keep your personal information safe?

Protecting your privacy is one of our professional skills, and we use standard digital media methods to protect your information. Physical documents are kept locked and electronic documents are restricted to the registrar and protected by a password and firewall.

Where is your data stored?

Your information is securely stored in our databases and on our corporate computers. Your data will only be processed by operators who provide appropriate contractual safeguards for the data they process.

How is your information used for advertising?

Your personal information will not be disclosed to third parties or transferred to third countries or international organizations. Your information will not be used for advertising outside our company.

Do we use cookies or similar technologies?

We use cookies and similar technologies to help deliver, optimize, modify and analyze our services and for the marketing purposes of our company.

When your information is shared with third parties or when it collects your information?

We share your information only when it is a necessary part of conducting business with you and when we provide you with services or when we are required by law to do so. Articles on our site may contain embedded content (for example, videos, pictures, articles, etc.). Opening imported from other sites embedded content is comparable to the fact that the visitor actually happen a third-party site. These sites may collect information from you, uses cookies to embed third-party tracking cookies and monitor interaction with embedded content, including the monitoring of interaction if and when you are signed in as a user site. We are not responsible for the privacy of third parties linked to their pages.

Network Services

We reserve the right to use eg. Google Analytics for the further development and marketing of our websites. If necessary, the browser-specific service can be removed using the Google Analytics Opt-out Browser Add-on.

Right of access and deletion of personal data

Upon written request, our client shall have the right to obtain from the data controller the data stored about him / her, subject to their retention periods. You can also request the removal of your personal information. NOTE! The right to delete personal information does not apply to personal data that we must retain for administrative, legal, or security reasons. If necessary, the data controller shall correct the information at the written request of the customer.

Possible changes

We reserve the right to make changes to this leaflet as necessary. In addition, we review this statement annually to ensure it is up to date. After the changes, we will publish the latest version on our website.

NOTE! This Privacy Policy was created on September 24, 2019.
